Louvolite is excited to be an official licensee of one of the biggest brands in the world to bring you a range of dream come true designs for your home!

Baby's first room can turn into a race track, a galaxy, or princess's castle. Louvolite with The Walt Disney Company has launched an initial collection of 12 fabric designs that bring fantasy to the dreamers or action for the adventurers. No matter the age there's a design for every step of their way, even for the big kid in you!

These window blinds, with their fantastic blackout properties, are great in bedrooms, family rooms and playrooms too - bringing a touch of magic to every corner of the home.

For ultimate light control consider Louvolite's blackout framing system which is designed to block out light and help you or your little one get a good nights sleep. Brilliant in summer when it's bedtime!

USE THE FORCE

We all know that as children grow their curiosity does too, so all of our window blinds are designed with safety in mind. Along with traditional chain operation with cord tidy and spring return, you can operate your blind at the touch of a button, or voice command, with our innovative motorisation.

One Touch motorised blinds can be operated in two ways. The unique wand control operates a single blind while the sleek remote control option allows you to operate a number of blinds at the same time, from anywhere in your room! A timer remote control option is available for extra convenience.

Our new Home Hub connects to your home WiFi so that your One Touch window blinds can be operated using the Louvolite App from your phone and tablet anywhere in the world, or with voice command in home!

BE PART OF THE STORY

As new films are released, we will also create and release new designs so that film fans can quickly and easily update their window blind with exciting looks from the movie of the moment.

With an ever expanding archive of designs featuring classic, loved characters like Mickey Mouse and Minnie Mouse to brand new Super Heroes and Heroines like Finn and Scarlet Witch, there's sure to be a Disney, Star Wars™ or Marvel blind for everyone.

“Marvel is a cornucopia of fantasy, a wild idea, a swashbuckling attitude, an escape from the humdrum and prosaic. It’s a serendipitous feast for the mind, the eye, and the imagination, a literate celebration of unbridled creativity, coupled with a touch of rebellion and an insolent desire to spit in the eye of the dragon.”
